"There are many attractions held out to-day to intending Insurers. It is all important however, to ascertain in the first place the financial position of the Institution offering the special advantages. Take it all in all the Positive Government Security offers perhaps the highest security of any Life Office putting forth claims for business. The Assets of the Company on 31st coomber. 1891, amounted to over 35 per cent, of the total sums assured by its Policies and Positive 1504 Notes and Bonuses declared thereon, or nearly tan times its gross premium income, showing a position of strength in relation to its liabilities which no Life Assurance Company at a similar. age has ever surpassed. The Funds (invested in names of Trustees, for the Policy-holders) exhibit a remarkable increase. Take two decades. At the end of the year 1872 they were less than Languages is desirous of getting employment £5,000; in December, 1882, they were cluse upon £220,000; and on the last day of last year they were within £57,000 of half a milion sterling."-Investigation. 20th Oct., 1892.
